Art Unit: 3723

Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The "secondary component" of claim 21 is not understood and no proper antecedent basis is found in the descriptive portion of the specification.

Claims 1-20, 46-54, 88, and 89 are allowed.

Claims 55-72, and 90-91 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species/invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper Nos 5, 8, 10, and 12.

Applicant's traversal of the 35USC112 rejection has been given careful consideration. Applicant has failed to appreciate that **applicant's description** must provide an understanding of what is meant by the "secondary component" of claim 21. Applicant's disclosure has not done this. Applicant points to what is called a "second component" in Blacket et al as being proper antecedent in applicant's disclosure for the claim 21 "secondary component". The examiner fails to understand this logic. Blacket et al could call virtually any component a first component or a second component. Blacket et al's "second component" appears to have no relevance whatsoever to applicant's "secondary component". Apparently applicant does not know where in applicant's disclosure "secondary component" is explained.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3723

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
